

International Nuclear Safeguards Policy

One-Week Tuition-Free Intensive Course in Monterey and Paid Summer Internships at Lawrence Livermore National Lab

Middlebury Institute of International Studies at Monterey (MIIS) and Lawrence Livermore National Laboratory (LLNL), in support of the U.S. Department of Energy National Nuclear Security Administration's Next Generation Safeguards Initiative, are pleased to announce **International Nuclear Safeguards Policy and Information Analysis**, a one-week, tuition-free, intensive course in Monterey and up to six paid summer internships.

The course is tuition free and open to all nationalities. Some stipends will be available to nonlocal applicants to partially cover transportation and housing.

Course applicants who are U.S. citizens may also apply for a ten-week paid internship at LLNL in Livermore. The internships pay \$6,000 total, which is paid in two installments of \$3,000. A selection panel will interview qualified applicants for internships. **Successful completion of the course is a prerequisite for the internships.**

James Martin Center for Nonproliferation Studies
460 Pierce Street • Monterey, CA 93940
nonproliferation.org

Course topics include:

- The role of the IAEA and international safeguards in the nuclear nonproliferation regime
- Concepts, objectives, evolution and history of international nuclear safeguards
- State-level safeguards analysis
- Case-study analyses of safeguards challenges
- Introduction to safeguards inspection, material accounting, containment, and surveillance
- Open-source information collection and analysis
- Effectiveness and limitations of safeguards
- Future development of safeguards

Dates to Remember:

Application Deadline:
Friday, March 6, 2020

Course Duration:
June 1-5, 2020

Ten-week Internships scheduled during the period:
June 8-August 14, 2020

Finalized selections for course/internships:
Early April 2020

Eligibility:

To be eligible for LLNL internships, applicants must be U.S. citizens.

Applicants must be a currently enrolled graduate student or a young professional with an interest in nuclear nonproliferation/safeguards.

We are interested in applicants who demonstrate how a deeper understanding of international safeguards policy will aid their professional pursuits.

Applications:

Applications must also include:

- an academic transcript
- one letter of recommendation
- a 500-word statement of purpose
- a current resume
